Professor Jeremy Black

A Global History Leften Stavros Stavrianos, 1999 Designed for courses in World History and World Civilization, this best-selling, classic exploration of world history takes an interdisciplinary global (rather than a regional or national) approach--tracing those major forces, movements, and events that have had a world-wide impact. It stresses connections between the past, present and future, emphasizing the question What does it mean for us today? The Seventh Edition reevaluates the course of human history with an eye toward the millennium, reflecting in its coverage the end of the cold war and the dawning possibilities for a new type of global history.

A History of the World Jeremy Black, 2020-12-15 Criss-crossing the globe from the prehistoric era to the modern day, Professor Jeremy Black takes you on a whirlwind tour of our past, leaving no stone unturned as he brings to life the fascinating history of civilisation. Mankind has accomplished remarkable feats - building great cities, creating beautiful art forms and developing new modes of communication. At the same time, warfare discrimination and poverty reveal the darker side of human nature. This incredible illustrated volume covers all of the above, from the birth of agriculture to the two world wars, delving into the vast range of human experience over the millennia. A History of the World forms an essential reference guide for modern-day amateur historians, providing a perfect foothold into this sprawling history.

21st-Century Narratives of World History R. Charles Weller, 2017-11-06 This book makes a unique and timely contribution to world/global historical studies and related fields. It places essential world historical frameworks by top scholars in the field today in clear, direct relation to and conversation with one other, offering them opportunity to enrich, elucidate and, at times, challenge one another. It thereby aims to: (1) offer world historians opportunity to critically reflect upon and refine their essential interpretational frameworks, (2) facilitate more effective and nuanced teaching and learning in and beyond the classroom, (3) provide accessible world historical contexts for specialized areas of historical as well as other fields of research in the humanities, social sciences and sciences, and (4) promote comparative historiographical critique which (a) helps identify continuing research questions for the field of world history in particular, as well as (b) further global peace and dialogue in relation to varying views of our ever-increasingly interconnected, interdependent,
multicultural, and globalized world and its shared though diverse and sometimes contested history.

**Life Through the Ages II** Mark P. Witton, 2020-04-07 A paleontologist shows what life was like on our planet long before the early humans emerged through words and illustrations. Paleontologist Dr. Mark P. Witton draws on the latest twenty-first century discoveries to re-create the appearances and lifestyles of extinct, fascinating species, the environments they inhabited, and the challenges they faced living on an ever-changing planet. A worthy successor to Charles Knight’s beloved 1946 classic, *Life through the Ages II* takes us on an unforgettable journey through the evolution of life on Earth. Dozens of gorgeous color illustrations and meticulously researched, accompanying commentary showcase the succession of lost worlds, defining events, and ancient creatures that have appeared since the earth was formed, creating an indispensable guide to explore what came before us. “When it comes to modern palaeoartists, Mark Witton has become a leading light. *Life Through the Ages II* is a beautiful palaeoart portfolio that pushes the envelope where realistic compositions and reconstructions are concerned.” —The Inquisitive Biologist

**Anthropology and Global History** Robert M. Carmack, 2013-10-11 Anthropology and Global History explains the origin and development of human societies and cultures from their earliest beginnings to the present—utilizing an anthropological lens but also drawing from sociology, economics, political science, history, and ecological and religious studies. Carmack reconceptualizes world history from a global perspective by employing the expansive concepts of “world-systems” and “civilizations,” and by paying deeper attention to the role of tribal and native peoples within this history. Rather than concentrating on the minute details of specific great events in global history, he shifts our focus to the broad social and cultural contexts in which they occurred. Carmack traces the emergence of ancient kingdoms and the characteristics of pre-modern empires as well as the processes by which the modern world has become integrated and transformed. The book addresses Western civilization as well as comparative processes which have unfolded in Asia, the Middle East, Latin America, and sub-Saharan Africa. Vignettes opening each chapter and case studies integrated throughout the text illustrate the numerous and often extremely complex historical processes which have operated through time and across local, regional, and global settings.

**A History of Europe** Professor Jeremy Black, 2021-08-31 A History of Europe is a masterful narrative, bringing together the continent’s common threads of history from the end of the ice ages until the present day. Travel back in time to rise of the Roman Empire, the brutal Viking raids, the cultural explosion of the Renaissance period, all the way up to the dissolution of the Soviet Union and the rise of consumer culture in the 21st century. Accomplished historian Jeremy Black acts as a knowledgeable guide to the past and the ways that it has shaped society today.

**World History** Candice Goucher, Linda Walton, 2013-03-12 World History: Journeys from Past to Present uses common
themes to present an integrated and comprehensive survey of human history from its origins to the present day. By weaving together thematic and regional perspectives in coherent chronological narratives, Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time.

Revised and updated throughout, the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters divided into six parts as follows: PART 1. EMERGENCE (Human origins to 500 CE) PART 2. ORDER (1 CE-1500 CE) PART 3. CONNECTIONS (500-1600 CE) PART 4. BRIDGING WORLDS (1300-1800 CE) PART 5. TRANSFORMING LIVES (1500-1900) PART 6. FORGING A GLOBAL COMMUNITY (1800- Present) The expanded new edition features an impressive full-color design with a host of illustrations, maps and primary source excerpts integrated throughout. Chapter opening timelines supply context for the material ahead, while end of chapter questions and annotated additional resources provide students with the tools for independent study. Each chapter and part boasts introductory and summary essays that guide the reader in comprehending the relevant theme. In addition, the companion website offers a range of resources including an interactive historical timeline, an indispensable study skills section for students, tips for teaching and learning thematically, and PowerPoint slides, lecture material and discussion questions in a password protected area for instructors. This textbook provides a basic introduction for all students of World History, incorporating thematic perspectives that encourage critical thinking, link to globally relevant contemporary issues, and stimulate further study.

What Is Global History? Sebastian Conrad, 2017-08-29 The first comprehensive overview of the innovative new discipline of global history Until very recently, historians have looked at the past with the tools of the nineteenth century. But globalization has fundamentally altered our ways of knowing, and it is no longer possible to study nations in isolation or to
understand world history as emanating from the West. This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history—one that takes the connectedness of the world as its point of departure, and that poses a fundamental challenge to the premises and methods of history as we know it. What Is Global History? provides a comprehensive overview of this exciting new approach to history. The book addresses some of the biggest questions the discipline will face in the twenty-first century: How does global history differ from other interpretations of world history? How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrisms? How can historians compare different societies and establish compatibility across space? What are the politics of global history? This in-depth and accessible book also explores the limits of the new paradigm and even its dangers, the question of whom global history should be written for, and much more. Written by a leading expert in the field, What Is Global History? shows how, by understanding the world's past as an integrated whole, historians can remap the terrain of their discipline for our globalized present.

Yearbook of Transnational History Thomas Adam, 2019-07-19 This second volume of the Yearbook of Transnational History offers readers new perspectives on historical research. This Yearbook is the only periodical worldwide dedicated to the publication of research in the field of transnational history.

A History of the World from the 20th to the 21st Century John Ashley Soames Grenville, 2005 Provides a comprehensive survey of the key events and personalities of this period.

Climate Change and the Course of Global History John L. Brooke, 2014-03-17 The first global study by a historian to fully integrate the earth-system approach of the new climate science with the material history of humanity.

Teaching World History in the Twenty-first Century: A Resource Book Heidi Roupp, 2015-02-12 This practical handbook is designed to help anyone who is preparing to teach a world history course - or wants to teach it better. It includes contributions by experienced teachers who are reshaping world history education, and features new approaches to the subject as well as classroom-tested practices that have markedly improved world history teaching.

World Past to World Present Peter N. Stearns, 2021-09-01 World Past to World Present: A Sketch of Global History provides an unusually brief and present-focused treatment of human history beginning with the advent of agriculture and ending with considerable attention to world history developments since World War II. This accessible and concise text covers a very real but selected history of the human experience. The book emphasizes the importance of contacts and exchanges among different cultures and economies up to contemporary globalization, and consistent attention is devoted to comparisons among major regional societies. The characteristics of agricultural, and later industrial, societies help establish a larger framework within the text. Peter N. Stearns works to connect past developments to contemporary global patterns.
and problems, explicitly balancing major changes with significant continuities. Key features include: A no-frills approach to an expansive stretch of human history Encourages students to understand the importance of studying history by focusing on aspects of the past that are particularly useful in assessing the current state of the world Invites instructors to combine the advantages of systematic summary coverage with varied supplementary reading Nine maps illustrate important movements and civilizations throughout the world. Truly international in coverage, this book has been specifically designed as a core text for Global History survey courses.

**A History of Their Own** Bonnie S. Anderson, Judith P. Zinsser, 2000 Organization of the book focuses on the developments, achievements, and changes in women's roles in society rather than placing women in historical chronology. A History of Their Own restores women to the historical record, brings their history into focus, and provides models of female action and heroism.

**World History Teaching in Asia** Shingo Minamizuka, 2019-03-30 World History Teaching in Asia is the first broad survey of the content and approaches used to teach world history in secondary schools and colleges in Asia. The collection has been crafted by scholars and educators whose goal was to shed light on the importance of history education and to foster understanding of and between Asian countries. These essays show how the teaching of world history in Asian countries has developed since World War II, with many interesting parallels, including the issue of Eurocentrism, but also distinctive national trends, and considerable changes over time. At a time when many Asian countries are making great strides in education, this study of history education in Asia will be of real interest to educators, history scholars, and policy-makers worldwide.

**The History of the World** Alex Woolf, 2017-09-21 Mankind has come a long way since our ancestors first stood up on two feet, but how did we get to where we are today? This book tells our story, through conflict and intrigue, power won and lost, and great empires built and destroyed. Clearly written and accessible, the chapters progress chronologically, with each section focusing on a different part of the world, making this book ideal for quick reference or for reading in depth. Whether you want to uncover the secrets of the first civilizations, follow marauding Mongols on their quest to conquer, or find out what made colonial empires tick, the answers lie within these pages. Looking to our recent history, the last section focuses on the great themes of the 21st century so far: population growth, technology, climate change, and religious extremism. Whatever the future may hold for us, we have much to learn from our past.
