

Community Public Health Nursing Promoting The Health Of Populations(3)

Judith Allender,Cherie Rector,Cherie Rector, PhD Rn-C,Kristine Warner,Kristine Warner, PhD MS MPH RN

Community/Public Health Nursing - E-Book Mary A. Nies,Melanie McEwen,2022-10-01 Master the knowledge and skills you need to succeed in community health nursing! Community/Public Health Nursing, 8th Edition discusses the nurse's role in population health promotion with a unique upstream preventive focus and a strong social justice approach, all in a concise, easy-to-read text. It shows how nurses can take an active role in social action and health policy — especially in caring for diverse and vulnerable population groups. This edition integrates the NCSBN Clinical Judgment Measurement Model to help you prepare for the Next Generation NCLEX®. Clinical examples and photo novellas show how nursing concepts apply to the real world. Active Learning boxes test your knowledge of the content you've just read, helping provide clinical application and knowledge retention. UNIQUE! Social justice approach promotes health for all people, emphasizing society's responsibility to protect all human life and ensure that all people have their basic needs met, such as adequate health protection. UNIQUE! Veterans' Health chapter presents situations and considerations unique to the care of military veterans. Genetics in Public Health boxes reflect increasing scientific evidence supporting the health benefits of using genetic tests and family health history to guide public health interventions. UNIQUE! Upstream focus addresses contributing factors of poor health and promotes community efforts to address potential health problems before they occur. Case studies present the theory, concepts, and application of the nursing process in practical and manageable examples. UNIQUE! Photo novellas — stories in photograph form — show real-life clinical scenarios and highlight the application of important community/public health nursing roles. Consistent pedagogy at the beginning of each chapter includes learning objectives, key terms and chapter outlines to help you locate important information and focus your study time. Clinical Examples present snippets of real-life client situations. Theoretical frameworks common to nursing and public health aid in the application of familiar and new theory bases to problems and challenges in the community. Research Highlights introduce you to the growing amount of community/public health nursing research literature. Ethical Insights boxes present situations of ethical dilemmas or

considerations pertinent to select chapter topics. NEW! Online case studies for the Next Generation NCLEX® Examination (NGN) provide you with the necessary tools to prepare for the NGN. NEW! Overview of the NCSBN Clinical Judgment Measurement Model provides information on the latest recommendations to promote evidence-based client decisions. NEW! Healthy People 2030 boxes highlight the most current national health care goals and objectives throughout the text.

Community/Public Health Nursing - E-Book Mary A. Nies, Melanie McEwen, 2013-12-27 Covering the nurse's role in promoting community health, *Community/Public Health Nursing*, 5th Edition is known for its upstream preventive focus and social justice approach, photo novellas with clinical stories, and a concise, readable style. It shows how you, as a nurse, can take an active role in social action and health policy - especially in caring for diverse population groups. Expert authors Mary A. Nies and Melanie McEwen discuss today's issues and trends, and describe the key issues and responsibilities of contemporary community/public health nursing. An upstream focus addresses factors that are the precursors to poor health in the community. A social justice approach promotes health for everyone. Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Case Study: Application of the Nursing Process feature presents specific community components of the nursing process separately from individual and family. Clinical examples offer snippets of real-life client situations. Research Highlights boxes show the application of current research to chapter content. Ethical Insights boxes highlight ethical issues and concerns. Healthy People 2020 boxes summarize objectives and their importance in community health. Objectives, key terms, and chapter outlines introduce important concepts and terminology at the beginning of every chapter. Learning Activities at the end of each chapter ask you to apply concepts to the world outside the classroom. New Health Promotion and Risk Reduction chapter details the promotion of health and presents strategies that can identify risk factors for illness. Faith Community Nursing chapter reflects current terminology from the ANA's Scope and Standards of Practice, and includes more coverage of the spiritual health of clients. Health: A Community View chapter expands its discussion of the continual challenges and strategies associated with the delivery of health care. Communicable Disease chapter includes new information about public health surveillance, outbreaks, and bioterrorism. Cultural Diversity and Community Health Nursing chapter features new content on complementary and alternative therapies.

Community Health Nursing Mary Albrecht Nies, Melanie McEwen, 2001 Based on the unique upstream thinking approach that emphasizes health promotion efforts to address the precursors of poor health, this edition focuses on the issues, responsibilities, and roles important for providing contemporary community health nursing care. Detailed case studies provide a community component for each step of the nursing process, and several new chapters have been added, including the economics of health care, care of the disabled population, and care for clients in prison and parish settings. The complete Instructor's Electronic Resource is available on CD-ROM and includes PowerPoint slides.

Community and Public Health Nursing Cherie L. Rector,2018 This student-friendly, highly visual text expands students' viewpoints from the client-nurse relationship to a population focus. Acknowledging that population-focused tools and interventions are needed in acute care, as infection rates continue to rise and nurse-sensitive outcome indicators are closely monitored, Cherie Rector weaves in meaningful, real-life examples, case studies, and perspectives to help students understand that transitions in care are critical in today's healthcare system. Covering a multitude of community and public settings, situations, and populations, the book helps students learn about promoting health, preventing disease (not just treating it), and protecting at-risk populations--including the elderly, the LGBT community, and veterans. This fully updated 9th Edition encourages students to think more globally and covers new innovations and emerging threats to the public's health.

Community/public Health Nursing Mary Albrecht Nies,Melanie McEwen,2007 Community/Public Health Nursing: Promoting the Health of Populations, 4th Edition focuses on the issues and responsibilities of contemporary community/public health nursing. Its emphasis on working with populations combined with the unique upstream preventive approach prepares the reader to assume an active role in caring for the health of clients in community and public settings. Plus, the new full-color design highlights special features and enhances content. Features photo-novellas to engage students and demonstrate applications of important community health nursing concepts. Provides detailed case studies that emphasize community aspects of all steps of the nursing process to promote the community perspective in all health situations. Examines issues of social justice and discusses how to target inequalities in arenas such as education, jobs, and housing to prepare students to function in a community-focused health care system. Demonstrates the use of theoretical frameworks common to community and public health nursing showing how familiar and new theory bases can be used to solve problems and challenges in the community. Illustrates real-life situations with highlighted Clinical Examples depicting today's community/public health care. Discussion of Levels of Prevention presented within the Case Studies address specific applications for each level. Provides Learning Activities at the end of each chapter to challenge students to apply chapter material outside the classroom. Includes a disaster management and preparedness chapter to examine this important new area of concern and responsibility in community health. Offers content on forensic nursing to explore this new subspecialty in community health. Summarizes research study findings pertinent to chapter topics in Research Highlights boxes. Highlights specific ethical issues in Ethical Insights boxes. Presents Healthy People 2010 objectives in feature boxes in appropriate chapters. Provides a Media Resources section at the front of each chapter that details the numerous Evolve components available to students. Chapter outline added to the front of chapters makes locating information in the chapter easier.

Community & Public Health Nursing: Promoting the Public's Health Judith Allender, Cherie Rector, Cherie Rector, PhD Rn-C, Kristine Warner, Kristine Warner, PhD MS MPH RN, 2013-04-26 Community & Public Health Nursing is designed to provide students a basic grounding in public health nursing principles while emphasizing aggregate-level nursing. While weaving in meaningful examples from practice throughout the text, the authors coach students on how to navigate between conceptualizing about a population-focus while also continuing to advocate and care for individuals, families, and aggregates. This student-friendly, highly illustrated text engages students, and by doing so, eases students into readily applying public health principles along with evidence-based practice, nursing science, and skills that promote health, prevent disease, as well as protect at-risk populations! What the 8th edition of this text does best is assist students in broadening the base of their knowledge and skills that they can employ in both the community and acute care settings, while the newly enhanced ancillary resources offers interactive tools that allow students of all learning styles to master public health nursing.

Community/Public Health Nursing Mary A. Nies, Melanie McEwen, 2018-10 Give your students a complete guide to community health nursing! Community/Public Health Nursing, 7th Edition provides a unique, upstream preventive focus and a strong social justice approach, all in a concise, easy-to-read text. Covering the nurses' role in promoting community health, it shows how students can take an active role in social action and health policy - emphasizing society's responsibility to protect all human life and ensuring that diverse and vulnerable populations have their basic health needs met. Clinical examples and photo novellas show how nursing concepts apply to the real world. Written by community health nursing experts Mary A. Community and Public Health Nursing Cherie Rector, Mary Jo Stanley, 2020-12-22 *Community and Public Health Nursing: Promoting the Public's Health*, 10th Edition delivers an engaging introduction to the principles of public health nursing and employs a highly visual, student-friendly approach to guide students in developing the understanding and skills to confidently promote health, foster disease prevention, and protect at-risk populations — including older adults, homeless populations, veterans, refugees, and the LGBTQ community — whether practicing in acute care or community and public health settings. Extensively revised and featuring a wealth of real-world examples, this updated edition reflects today's most prominent public health issues and empowers students to provide the most effective nursing care wherever they may choose to practice.

Public Health Nursing - Revised Reprint Marcia Stanhope, Jeanette Lancaster, 2013-10-15 This Revised Reprint of our 8th edition, the gold standard in community health nursing, *Public Health Nursing: Population-Centered Health Care in the Community*, has been updated with a new Quality and Safety Education in Nursing (QSEN) appendix that features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. As with the previous version, this text provides comprehensive and up-to-date content to keep you at the forefront of the ever-changing community health climate and prepare you for an effective nursing career. In addition to concepts and interventions for individuals, families, and communities, this text also incorporates real-life applications of the public nurse's role, Healthy People 2020 initiatives, new chapters on forensics and genomics, plus timely coverage of disaster management

and important client populations such as pregnant teens, the homeless, immigrants, and more. Evidence-Based Practice boxes illustrate how the latest research findings apply to public/community health nursing. Separate chapters on disease outbreak investigation and disaster management describe the nurse's role in surveilling public health and managing these types of threats to public health. Separate unit on the public/community health nurse's role describes the different functions of the public/community health nurse within the community. Levels of Prevention boxes show how community/public health nurses deliver health care interventions at the primary, secondary, and tertiary levels of prevention. What Do You Think?, Did You Know?, and How To? boxes use practical examples and critical thinking exercises to illustrate chapter content. The Cutting Edge highlights significant issues and new approaches to community-oriented nursing practice. Practice Application provides case studies with critical thinking questions. Separate chapters on community health initiatives thoroughly describe different approaches to promoting health among populations. Appendixes offer additional resources and key information, such as screening and assessment tools and clinical practice guidelines. NEW! Quality and Safety Education in Nursing (QSEN) appendix features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. NEW! Linking Content to Practice boxes provide real-life applications for chapter content. NEW! Healthy People 2020 feature boxes highlight the goals and objectives for promoting health and wellness over the next decade. NEW! Forensic Nursing in the Community chapter focuses on the unique role of forensic nurses in public health and safety, interpersonal violence, mass violence, and disasters. NEW! Genomics in Public Health Nursing chapter includes a history of genetics and genomics and their impact on public/community health nursing care.

Population-Based Public Health Clinical Manual, Fourth Edition: Using EBP to Transform Policy in Nursing and Healthcare Patricia M. Schoon, Carolyn Marie Porta, 2023-06-29 "This 4th edition is an invaluable resource for PHN educators, students, and practitioners. Authoritative and practical, this volume reflects the authors' solid understanding of public health nursing practice today. The reality-based insights and much-needed guidance about population health and public health nursing place this book in the forefront of educational resources for public health and community health nursing educators." - Marla E. Salmon, ScD, RN, FAAN Professor, Nursing and Global Health Affiliate Professor, Governance and Public Policy University of Washington Population-Based Public Health Clinical Manual: The Henry Street Model for Nurses has proven to be one of the most important public health texts for students and practitioners alike. Focused on developing evidence-based public health nursing practice in diverse settings, and built on the framework of the Henry Street Consortium's 13 competencies for population-based, entry-level public health nursing, this new, full-color fourth edition is fully revised and updated to support readers' exploration of the field of public health nursing and the unique responsibilities and challenges that come with being a public health nurse. TABLE OF CONTENTS Part I: Foundational Concepts for Public Health Nursing Practice Chapter 1: Introduction to Public Health Nursing Practice Chapter 2: Evidence-Based Public Health

Nursing Practice Part II: Entry-Level Population-Based Public Health Nursing Competencies Chapter 3: COMPETENCY 1: Applies the Public Health Nursing Process to Individuals, Families, Communities, and Systems Chapter 4: COMPETENCY 2: Utilizes Basic Epidemiological Principles in Public Health Nursing Practice Chapter 5: COMPETENCY 3: Utilizes the Principles and Science of Environmental Health to Promote Safe and Sustainable Environments for Individuals, Families, Communities, and Systems Chapter 6: COMPETENCY 4: Practices Public Health Nursing Within the Auspices of the Nurse Practice Act Chapter 7: COMPETENCY 5: Works Within the Responsibility and Authority of the Governmental Public Health System Chapter 8: COMPETENCY 6: Utilizes Collaboration to Achieve Public Health Goals Chapter 9: COMPETENCY 7: Effectively Communicates With Individuals, Families, Communities, and Systems Chapter 10: COMPETENCY 8: Establishes and Maintains Caring Relationships With Individuals, Families, Communities, and Systems Chapter 11: COMPETENCY 9: Incorporates Mental, Physical, Emotional, Social, Spiritual, and Environmental Aspects of Health Into Assessment, Planning, Implementation, and Evaluation Chapter 12: COMPETENCY 10: Demonstrates Nonjudgmental and Unconditional Acceptance of People Different From Self Chapter 13: COMPETENCY 11: Shows Evidence of Commitment to Social Justice, the Greater Good, Reducing Racial and Health Disparities, and Increasing Health Equity Chapter 14: COMPETENCY 12: Demonstrates Leadership in Public Health Nursing Practices With Individuals and Families, Communities, and Systems Chapter 15: COMPETENCY 13: Promotes, Assesses, and Coordinates Population Health at the Individual, Family, Community, and Systems Levels of Practice to Create Healthier Individuals, Families, Populations, and Communities Chapter 16: Putting It All Together: What It Means to Be a Public Health Nurse Part III: Appendices Appendix A: Entry-Level Population-Based Public Health Nursing (PHN) Competencies for the New Graduate or Novice Public Health Nurse Appendix B: Omaha System Appendix C: Chapter 15 Population Health Exemplar Appendix D: Spotlight: Population Health Appendix E: Spotlight: Population Health Outreach ABOUT THE AUTHORS Patricia M. Schoon, DNP, MPH, RN, PHN, is a tenured Associate Professor at Metropolitan State University in St. Paul, Minnesota. She is a founding member of the Henry Street Consortium and has taught nursing and public health for almost 50 years. Carolyn M. Porta, PhD, MPH, RN, PHN, SANE-A, FAAN, FNAP, is an Associate Vice President for Clinical Affairs at the University of Minnesota and a tenured Professor in the School of Nursing. She holds adjunct faculty appointments in the School of Public Health at the University of Minnesota, the Kaohsiung Medical University School of Nursing, and the Manipal Academy of Higher Education School of Nursing.

Community/Public Health Nursing Practice Frances A. Maurer, Claudia M. Smith, 2012-10-01 Focusing on practical, need-to-know information, Community/Public Health Nursing Practice helps you learn how to apply the nursing process at the community and family level. It features an engaging, easy-to-understand writing style, as well as assessment tools, detailed case studies, and clinical examples that demonstrate how key concepts apply to real-world practice. Additional resources on the companion Evolve website expand and enhance content within the text. Practical features including Case

Studies, Ethics in Practice, and The Nursing Process in Practice illustrate real-world applications of key community/public health nursing concepts. A complete unit on the community as client helps you understand how the assessment, diagnosis, planning, intervention, and evaluation steps of the nursing process apply to the community, as opposed to an individual. A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities. UNIQUE! A chapter on screening and referral promotes population-focused practice, which is the crux of community/public health nursing. A separate unit on the family emphasizes the importance of viewing the family as a singular client. A complete discussion of the Minnesota Wheel helps you better understand this widely-accepted framework for community/public health nursing practice. Helpful sections such as Focus Questions, Chapter Outlines, Key Ideas, and Learning by Experience and Reflection help you pinpoint essential information. NEW! Healthy People 2020 objectives throughout the text help you identify common health risk factors in populations and families. NEW! Coverage of health care reform, including the Patient Protection and Affordable Care Act of 2010 (PPACA), explores how current health care legislation impacts community/public health nursing. NEW! Discussions of community health hot button issues, such as human trafficking, genital circumcision, and bullying, introduce you to today's health care challenges. NEW! Information on weather-related disaster fatalities, bioterrorism, and national and state planning responses familiarize you with current, relevant issues which affect the health of populations worldwide and shape the role of the community/public health nurse.

Community & Public Health Nursing Judith Ann Allender, Kristine D. Warner, 2014 *Community & Public Health Nursing* is designed to provide students a basic grounding in public health nursing principles while emphasizing aggregate-level nursing. While weaving in meaningful examples from practice throughout the text, the authors coach students on how to navigate between conceptualizing about a population-focus while also continuing to advocate and care for individuals, families, and aggregates. This student-friendly, highly illustrated text engages students, and by doing so, eases students into readily applying public health principles along with evidence-based practice, nursing science, and skills that promote health, prevent disease, as well as protect at-risk populations! What the 8th edition of this text does best is assist students in broadening the base of their knowledge and skills that they can employ in both the community and acute care settings, while the newly enhanced ancillary resources offers interactive tools that allow students of all learning styles to master public health nursing.

Community/Public Health Nursing Mary A. Nies, Penny Leake, 2010-10-06 This money saving package includes *Community/Public Health Nursing Online* for Nies and McEwen: *Community/Public Health Nursing (User Guide and Access Code)* and the 5th edition of *Community/Public Health Nursing Textbook*.

Population and Community Health Nursing Mary Jo Clark, 2014-10-09 The community/population health/public health nurse is charged with promoting the health of populations, not only the individuals within populations. This requires

advocacy on the part of the nurse, for entire communities as well as for the individuals within. This text has been thoroughly updated with an even stronger population-based nursing approach. This text continues to approach population-based/community health nursing from an aggregate perspective, clearly showing how nurses can serve to improve the health of populations within a community by functioning as advocates on many levels. To illustrate how that can be manifested, real-life vignettes begin every chapter, showing students what advocacy looks like in the public health context. In each chapter, clinical reasoning exercises are woven throughout in boxed features.

Foundations for Population Health in Community/Public Health Nursing - E-Book Marcia Stanhope, Jeanette Lancaster, 2021-10-08 Master the essentials of health promotion in community and public health nursing! Foundations for Population Health in Community/Public Health Nursing, 6th Edition provides clear, concise coverage of the nurse's role in preventing disease, promoting health, and providing health education in community settings. Case studies and critical thinking activities make it easier to apply concepts to community nursing practice. New to this edition are Healthy People 2030 guidelines and coverage of the latest issues, trends, and approaches. Written by well-known nursing educators Marcia Stanhope and Jeanette Lancaster, this streamlined text covers the fundamentals of designing effective nursing strategies for vulnerable and special populations. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, reinforcing the concept of prevention as it relates to community and public health care. Applying Content to Practice boxes highlight how chapter content is applied to nursing practice in the community. Practice Application scenarios present practice situations with questions and answers to help you apply concepts to community practice. Genomics coverage provides a history of genetics and genomics and how they impact public/community health nursing care. Coverage of ongoing health care reform issues includes the impact of the Patient Protection and Affordable Care Act of 2010 (ACA) on public health nursing. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. NEW! COVID-19 pandemic information has been added. NEW! Healthy People 2030 objectives are highlighted throughout the book, addressing the health priorities and emerging health issues expected in the next decade. NEW! Updated content and figures reflect the most current data, issues, trends, and practices. NEW! Expanded Check Your Practice boxes use Clinical Judgment (Next Generation NCLEX®) steps to guide your thinking about practice scenarios.

Community/Public Health Nursing Practice: Health for Families and Populations [With EBook Package] Frances A. Maurer, Claudia M. Smith, 2008-12 This money-saving package is a must-have for nursing students! It includes Maurer's Community/Public Health Nursing Practice 4th edition text and an electronic version of the textbook that allows students to

search, highlight information, take notes, share notes and more. This package makes it simple for students to make the most of their study time and get more use out of their textbooks!

Public Health Nursing Marie Truglio-Londrigan, Sandra Lewenson, 2011 Public Health Nursing: Practicing Population-Based Care explores the scientific discipline of public health and in particular public health nursing. This public health nursing perspective is applied throughout the chapters and demonstrates how public health nurses use various interventions based on best evidence in their practice, both to protect and enhance the health of the public. This innovative text includes key topics such as a discussion of historical evidence in coming to know the meaning of the terms used to describe public health nursing; the exploration of the use of technology in public health; social epidemiology as well as the traditional content on epidemiology; and an innovatively designed assessment tool that uses Healthy People 2010, A Systematic Approach to Health Improvement, as its framework. The highlight of this text is the focus on the 17 intervention strategies identified in the Population-Based Public Health Nursing Practice Intervention Wheel including a discussion of how these interventions may be applied to the three levels of practice: individual/family, community, and systems.
