Crisis Services: Effectiveness, Cost-Effectiveness, and Funding Strategies U.S. Department of Health and Human Services, 2019-11-23 Crisis Services are a continuum of services that are provided to individuals experiencing a psychiatric emergency. The primary goal of these services is to stabilize and improve psychological symptoms of distress and to engage individuals in an appropriate treatment service to address the problem that led to the crisis. Core crisis services include: 23-hour crisis stabilization/observation beds, short term crisis residential services and crisis stabilization, mobile crisis services, 24/7 crisis hotlines, warm lines, psychiatric advance directive statements, and peer crisis services. The research base on the effectiveness of crisis services is growing. There is evidence that crisis stabilization, community-based residential crisis care, and mobile crisis services can divert individuals from unnecessary hospitalizations and ensure the least restrictive treatment option is available to people experiencing behavioral health crises.

Slaying the Dragon: The History of Addiction Treatment and Recovery in America William L. White, 2014-07-01 This is the remarkable story of America's personal and institutional responses to alcoholism and other addictions. It is the story of mutual aid societies: the Washingtonians, the Blue Ribbon Reform Clubs, the Ollapod Club, the United Order of Ex-Boozers, the Jacoby Club, Alcoholics Anonymous and Women for Sobriety. It is a story of addiction treatment institutions from the inebriate asylums and Keeley Institutes to Hazelden and Parkside. It is the story of evolving treatment interventions that range from water cures and mandatory sterilization to aversion therapies and methadone maintenance. William White has provided a sweeping and engaging history of one of America's most enduring problems and the profession that was birthed to respond to it -- BACK COVER.

Crisis Services and Hospital Crises Dylan Tomlinson, Kevin Allen, 2018-12-17 First published in 1999. This text examines the impasse in the development of alternatives to hospitals, drawing on the experience of both crisis service users and providers, and evidence of the effectiveness of such services. The book concludes that crisis services are preferred by users, are usually more cost effective and often more clinically effective than acute admissions wards. It offers a number of policy suggestions to advance the role of crisis services, including monitoring, evaluation and development centres, or programmes being established on a national basis, and joint training between crisis service and hospitals.

[Crisis Intervention Team \(CIT\) - Methods for Using Data to Inform Practice: A Step-by-Step Guide](#) U.S. Department of

Health and Human Services,2019-03-17 The Crisis Intervention Team (CIT) program has become a globally recognized model for safely and effectively assisting people with mental and substance use disorders who experience crises in the community. The CIT Model promotes strong community partnerships among law enforcement, behavioral health providers, people with mental and substance use disorders, along with their families and others. While law enforcement agencies have a central role in program development and ongoing operations, a continuum of crisis services available to citizens prior to police involvement is part of the model. These other community services (e.g., mobile crisis teams, crisis phone lines) are essential for avoiding criminal justice system involvement for those with behavioral health challenges ? a goal of CIT programs (Steadman & Morrissette, 2016). CIT is just one part of a robust continuum of behavioral health services for the whole community.

Within Our Reach Rosalynn Carter,Susan K. Golant,Kathryn E Cade,2010-04-27 In Within Our Reach: Ending the Mental Health Crisis, Rosalynn Carter and coauthors Susan K. Golant and Kathryn E. Cade render an insightful, unsparing assessment of the state of mental health. Mrs. Carter has been deeply invested in this issue since her husband's gubernatorial campaign when she saw firsthand the horrific, dehumanizing treatment of people with mental illnesses. Using stories from her 35 years of advocacy to springboard into a discussion of the larger issues at hand, Carter crafts an intimate and powerful account of a subject previously shrouded in stigma and shadow, surveying the dimensions of an issue that has affected us all. She describes a system that continues to fail those in need, even though recent scientific breakthroughs with mental illness have potential to help most people lead more normal lives. Within Our Reach is a seminal, searing, and ultimately optimistic look at how far we've come since Carter's days on the campaign trail and how far we have yet to go.

Community Resources William Crimando,T. F. Riggan,2005-01-26 Counselors often refer their clients to particular human-services agencies to deal with specific problems outside their organizations area of expertise. How do they find out which outside agencies can help their clients? What limitations exist? What new helping organizations have been developed and programmed, and what existing programs have been enhanced? What has new legislation funded? This comprehensive and authoritative volume provides the answers human-service professionals need to assist and guide their clients. Written by credentialed practitioners, the book provides detailed explanations and descriptions of the most prominent and beneficial human-service agencies. Also included is information on agency personnel, as well as specific organizational certifications, licensing, and accreditation. This indispensable guide is suitable for use in courses covering the types of human services that exist in every community, and as a follow-up or adjunct to case management courses.
