Fault Lines A History Of The United States Since 1974

John F. Mcclymer

Fault Lines: A History of the United States Since 1974

Kevin M. Kruse, Julian E. Zelizer, 2019-01-08

A gripping and troubling account of the origins of our turbulent times.” — Jill Lepore, author of These Truths: A History of the United States

When—and how—did America become so polarized? In this masterful history, leading historians Kevin M. Kruse and Julian E. Zelizer uncover the origins of our current moment. It all starts in 1974 with the Watergate crisis, the OPEC oil embargo, desegregation busing riots in Boston, and the wind-down of the Vietnam War. What follows is the story of our own lifetimes. It is the story of ever-widening historical fault lines over economic inequality, race, gender, and sexual norms firing up a polarized political landscape. It is also the story of profound transformations of the media and our political system fueling the fire. Kruse and Zelizer’s Fault Lines is a master class in national divisions nearly five decades in the making.

Fault Lines
Kevin M Kruse, Julian E. Zelizer, 2020-01-28

Two award-winning historians explore the origins of a divided America. If you were asked when America became polarized, your answer would likely depend on your age: you might say during Barack Obama’s presidency, or with the post-9/11 war on terror, or the culture wars of the 1980s and 1990s, or the “Reagan Revolution” and the the rise of the New Right. For leading historians Kevin M. Kruse and Julian E. Zelizer, it all starts in 1974. In that one year, the nation was rocked by one major event after another: The Watergate crisis and the departure of President Richard Nixon, the first and only U.S. President to resign; the winding down of the Vietnam War and rising doubts about America’s military might; the fallout from the OPEC oil embargo that paralyzed America with the greatest energy crisis in its history; and the desegregation busing riots in South Boston that showed a horrified nation that our efforts to end institutional racism were failing. In the years that followed, the story of our own lifetimes would be written. Longstanding historical fault lines over income inequality, racial division, and a revolution in gender roles and sexual norms would deepen and fuel a polarized political landscape. In Fault Lines, Kruse and Zelizer reveal how the divisions of the present day began almost five decades ago, and how they were widened thanks to profound changes in our political system as well as a fracturing media landscape that was repeatedly transformed with the rise of cable TV, the internet, and social media. How did the United States become so divided? Fault Lines offers a richly told, wide-angle history view toward an
Annals of the Former World  John McPhee, 2000-06-15 The Pulitzer Prize-winning view of the continent, across the fortieth parallel and down through 4.6 billion years Twenty years ago, when John McPhee began his journeys back and forth across the United States, he planned to describe a cross section of North America at about the fortieth parallel and, in the process, come to an understanding not only of the science but of the style of the geologists he traveled with. The structure of the book never changed, but its breadth caused him to complete it in stages, under the overall title Annals of the Former World. Like the terrain it covers, Annals of the Former World tells a multilayered tale, and the reader may choose one of many paths through it. As clearly and succinctly written as it is profoundly informed, this is our finest popular survey of geology and a masterpiece of modern nonfiction. Annals of the Former World is the winner of the 1999 Pulitzer Prize for Nonfiction.

Race Relations in the United States, 1900-1920  John F. Mcclymer, 2008-11-30 In the first decades of the twentieth century, virulent racism lingered from Reconstruction, and segregation increased. Hostility met the millions of new immigrants from Eastern and southern Europe, and immigration was restricted. Still, even in an inhospitable climate, blacks and other minority groups came to have key roles in popular culture, from ragtime and jazz to film and the Harlem Renaissance. This volume is THE content-rich source in a desirable decade-by-decade organization to help students and general readers understand the crucial race relations of the start of modern America. Race Relations in the United States, 1900-1920 provides comprehensive reference coverage of the key events, influential voices, race relations by group, legislation, media influences, cultural output, and theories of inter-group interactions. The volume covers two decades with a standard format coverage per decade, including Timeline, Overview, Key Events, Voices of the Decade, Race Relations by Group, Law and Government, Media and Mass Communications, Cultural Scene, Influential Theories and Views of Race Relations, Resource Guide. This format allows comparison of topics through the decades. The bulk of the coverage is topical essays, written in a clear, encyclopedic style. Historical photos, a selected bibliography, and index complement the text.

Grand Expectations  James T. Patterson, 1996 Interweaving key cultural, economic, social, and political events, a history of the United States in the post-World War II era ranges from 1945, through a turbulent period of economic growth and social upheaval, to Watergate and Nixon's 1974 resignation

Fragile Democracy  James L. Leloudis, Robert R. Korstad, 2020-08-06 America is at war with itself over the right to vote, or, more precisely, over the question of who gets to exercise that right and under what circumstances. Conservatives speak in ominous tones of voter fraud so widespread that it threatens public trust in elected government. Progressives counter that fraud is rare and that calls for reforms such as voter ID are part of a campaign to shrink the electorate and exclude some citizens from the political life of the nation. North Carolina is a battleground for this debate, and its history can help us
understand why—a century and a half after ratification of the Fifteenth Amendment—we remain a nation divided over the right to vote. In Fragile Democracy, James L. Leloudis and Robert R. Korstad tell the story of race and voting rights, from the end of the Civil War until the present day. They show that battles over the franchise have played out through cycles of emancipatory politics and conservative retrenchment. When race has been used as an instrument of exclusion from political life, the result has been a society in which vast numbers of Americans are denied the elements of meaningful freedom: a good job, a good education, good health, and a good home. That history points to the need for a bold new vision of what democracy looks like.

One Nation Under God Kevin M. Kruse, 2015-04-14 The provocative and authoritative history of the origins of Christian America in the New Deal era We're often told that the United States is, was, and always has been a Christian nation. But in One Nation Under God, historian Kevin M. Kruse reveals that the belief that America is fundamentally and formally Christian originated in the 1930s. To fight the slavery of FDR's New Deal, businessmen enlisted religious activists in a campaign for freedom under God that culminated in the election of their ally Dwight Eisenhower in 1952. The new president revolutionized the role of religion in American politics. He inaugurated new traditions like the National Prayer Breakfast, as Congress added the phrase under God to the Pledge of Allegiance and made In God We Trust the country's first official motto. Church membership soon soared to an all-time high of 69 percent. Americans across the religious and political spectrum agreed that their country was one nation under God. Provocative and authoritative, One Nation Under God reveals how an unholy alliance of money, religion, and politics created a false origin story that continues to define and divide American politics to this day.

Native Activism in Cold War America Daniel M. Cobb, 2008-10-24 The heyday of American Indian activism is generally seen as bracketed by the occupation of Alcatraz in 1969 and the Longest Walk in 1978; yet Native Americans had long struggled against federal policies that threatened to undermine tribal sovereignty and self-determination. This is the first book-length study of American Indian political activism during its seminal years, focusing on the movement's largely neglected early efforts before Alcatraz or Wounded Knee captured national attention. Ranging from the end of World War II to the late 1960s, Daniel Cobb uncovers the groundwork laid by earlier activists. He draws on dozens of interviews with key players to relate untold stories of both seemingly well-known events such as the American Indian Chicago Conference and little-known ones such as Native participation in the Poor People's Campaign of 1968. Along the way, he introduces readers to a host of previously neglected but critically important activists: Mel Thom, Tillie Walker, Forrest Gerard, Dr. Jim Wilson, Martha Grass, and many others. Cobb takes readers inside the early movement—from D'Arcy McNickle's founding of American Indian Development, Inc. and Vine Deloria Jr.'s tenure as executive director of the National Congress of American Indians to Clyde Warrior's leadership in the National Indian Youth Council—and describes how early activists forged connections.
between their struggle and anticolonialist movements in the developing world. He also describes how the War on Poverty's Community Action Programs transformed Indian Country by training bureaucrats and tribal leaders alike in new political skills and providing activists with the leverage they needed to advance the movement toward self-determination. This book shows how Native people who never embraced militancy--and others who did--made vital contributions as activists well before the American Indian Movement burst onto the scene. By highlighting the role of early intellectuals and activists like Sol Tax, Nancy Lurie, Robert K. Thomas, Helen Peterson, and Robert V. Dumont, Cobb situates AIM's efforts within a much broader context and reveals how Native people translated the politics of Cold War civil rights into the language of tribal sovereignty. Filled with fascinating portraits, Cobb's groundbreaking study expands our understanding of American Indian political activism and contributes significantly to scholarship on the War on Poverty, the 1960s, and postwar politics and social movements.

**Myth America** Kevin Kruse, Julian E. Zelizer, 2023-12-05 In this incisive (Vanity Fair) and authoritative (New York Times) instant New York Times bestseller, America's top historians set the record straight on the most pernicious myths about our nation's past. The United States is in the grip of a crisis of bad history. Distortions of the past promoted in the conservative media have led large numbers of Americans to believe in fictions over facts, making constructive dialogue impossible and imperiling our democracy. In Myth America, Kevin M. Kruse and Julian E. Zelizer have assembled an all-star team of fellow historians to push back against this misinformation. The contributors debunk narratives that portray the New Deal and Great Society as failures, immigrants as hostile invaders, and feminists as anti-family warriors--among numerous other partisan lies. Based on a firm foundation of historical scholarship, their findings revitalize our understanding of American history. Replacing myths with research and reality, Myth America is essential reading amid today's heated debates about our nation's past. **Don't Blame Us** Lily Geismer, 2017-01-31 Don't Blame Us traces the reorientation of modern liberalism and the Democratic Party away from their roots in labor union halls of northern cities to white-collar professionals in postindustrial high-tech suburbs, and casts new light on the importance of suburban liberalism in modern American political culture. Focusing on the suburbs along the high-tech corridor of Route 128 around Boston, Lily Geismer challenges conventional scholarly assessments of Massachusetts exceptionalism, the decline of liberalism, and suburban politics in the wake of the rise of the New Right and the Reagan Revolution in the 1970s and 1980s. Although only a small portion of the population, knowledge professionals in Massachusetts and elsewhere have come to wield tremendous political leverage and power. By
probing the possibilities and limitations of these suburban liberals, this rich and nuanced account shows that—far from being an exception to national trends—the suburbs of Massachusetts offer a model for understanding national political realignment and suburban politics in the second half of the twentieth century.

**Lyndon B. Johnson and American Liberalism** Bruce J. Schulman, 2006-08-01 Whether admired or reviled, Lyndon B. Johnson and his tumultuous administration embodied the principles and contradictions of his era. Taking advantage of newly released evidence, this second edition incorporates a selection of fresh documents, including transcripts of Johnson's phone conversations and conservative reactions to his leadership, to examine the issues and controversies that grew out of Johnson's presidency and have renewed importance today. The voices of Johnson, his aides, his opponents, and his interpreters address the topics of affirmative action, the United States' role in world affairs, civil rights, Vietnam, the Great Society, and the fate of liberal reform. Additional photographs of Johnson in action complement Bruce J. Schulman's rich biographical narrative, and a chronology, an updated bibliographical essay, and new questions for consideration provide pedagogical support.

**White Flight** Kevin M. Kruse, 2013-07-11 During the civil rights era, Atlanta thought of itself as The City Too Busy to Hate, a rare place in the South where the races lived and thrived together. Over the course of the 1960s and 1970s, however, so many whites fled the city for the suburbs that Atlanta earned a new nickname: The City Too Busy Moving to Hate. In this reappraisal of racial politics in modern America, Kevin Kruse explains the causes and consequences of white flight in Atlanta and elsewhere. Seeking to understand segregationists on their own terms, White Flight moves past simple stereotypes to explore the meaning of white resistance. In the end, Kruse finds that segregationist resistance, which failed to stop the civil rights movement, nevertheless managed to preserve the world of segregation and even perfect it in subtler and stronger forms. Challenging the conventional wisdom that white flight meant nothing more than a literal movement of whites to the suburbs, this book argues that it represented a more important transformation in the political ideology of those involved. In a provocative revision of postwar American history, Kruse demonstrates that traditional elements of modern conservatism, such as hostility to the federal government and faith in free enterprise, underwent important transformations during the postwar struggle over segregation. Likewise, white resistance gave birth to several new conservative causes, like the tax revolt, tuition vouchers, and privatization of public services. Tracing the journey of southern conservatives from white supremacy to white suburbia, Kruse locates the origins of modern American politics. Some images inside the book are unavailable due to digital copyright restrictions.

**Know Your Price** Andre M. Perry, 2020-05-19 The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. “That's just how they are” or
“there’s really no excuse”: we’ve all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilkinsburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilkinsburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. Know Your Price demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.

**These Truths: A History of the United States** Jill Lepore,2018-09-18 “Nothing short of a masterpiece.” —NPR Books A New York Times Bestseller and a Washington Post Notable Book of the Year In the most ambitious one-volume American history in decades, award-winning historian Jill Lepore offers a magisterial account of the origins and rise of a divided nation. Widely hailed for its “sweeping, sobering account of the American past” (New York Times Book Review), Jill Lepore’s one-volume history of America places truth itself—a devotion to facts, proof, and evidence—at the center of the nation’s history. The American experiment rests on three ideas—“these truths,” Jefferson called them—political equality, natural rights, and the sovereignty of the people. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation’s truths, or belied them. To answer that question, Lepore wrestles with the state of American politics, the legacy of slavery, the persistence of inequality, and the nature of technological change. “A nation born in contradiction... will fight, forever, over the meaning of its history,” Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. With These Truths, Lepore has produced a book that will shape our view of American history for decades to come.

hosted by the Library Company of Philadelphia in 2019, as well as the ten best articles students and interested citizens should read about voter access and suppression. The book will have an online presence that hosts additional content (more articles, podcasts, other news) on the press’s Manifold digital publishing platform site--

**Learn about the United States** U.S. Citizenship and Immigration Services, 2009 Learn About the United States is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

**Burning Down the House** Julian E. Zelizer, 2020-07-07 A New York Times Notable Book! A New York Times Book Review Editors' Choice The story of how Newt Gingrich and his allies tainted American politics, launching an enduring era of brutal partisan warfare When Donald Trump was elected president in 2016, President Obama observed that Trump “is not an outlier; he is a culmination, a logical conclusion of the rhetoric and tactics of the Republican Party.” In Burning Down the House, historian Julian Zelizer pinpoints the moment when our country was set on a path toward an era of bitterly partisan and ruthless politics, an era that was ignited by Newt Gingrich and his allies. In 1989, Gingrich brought down Democratic Speaker of the House Jim Wright and catapulted himself into the national spotlight. Perhaps more than any other politician, Gingrich introduced the rhetoric and tactics that have shaped Congress and the Republican Party for the last three decades. Elected to Congress in 1978, Gingrich quickly became one of the most powerful figures in America not through innovative ideas or charisma, but through a calculated campaign of attacks against political opponents, casting himself as a savior in a fight of good versus evil. Taking office in the post-Watergate era, he weaponized the good government reforms newly introduced to fight corruption, wielding the rules in ways that shocked the legislators who had created them. His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright. While some of Gingrich’s fellow Republicans were disturbed by the viciousness of his attacks, party leaders enjoyed his successes so much that they did little collectively to stand in his way. Democrats, for their part, were alarmed, but did not want to sink to his level and took no effective actions to stop him. It didn’t seem to matter that Gingrich’s moral conservatism was hypocritical or that his methods were brazen, his accusations of corruption permanently tarnished his opponents. This brand of warfare worked, not as a strategy for governance but as a path to power, and what Gingrich planted, his fellow Republicans reaped. He led them to their first majority in Congress in decades, and his legacy extends far beyond his tenure in office. From the Contract with America to the rise of the Tea Party and the Trump presidential campaign, his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics. Burning Down the House presents the alarming narrative of
how Gingrich and his allies created a new normal in Washington.

**The Fierce Urgency of Now** Julian E. Zelizer, 2015-01-08 A majestic big-picture account of the Great Society and the forces that shaped it, from Lyndon Johnson and members of Congress to the civil rights movement and the media. Between November 1963, when he became president, and November 1966, when his party was routed in the midterm elections, Lyndon Johnson spearheaded the most transformative agenda in American political history since the New Deal, one whose ambition and achievement have had no parallel since. In just three years, Johnson drove the passage of the Civil Rights and Voting Rights Acts; the War on Poverty program; Medicare and Medicaid; the National Endowments for the Arts and the Humanities; Public Broadcasting; immigration liberalization; a raft of consumer and environmental protection acts; and major federal investments in public transportation. Collectively, this group of achievements was labeled by Johnson and his team the “Great Society.” In *The Fierce Urgency of Now*, Julian E. Zelizer takes the full measure of the entire story in all its epic sweep. Before Johnson, Kennedy tried and failed to achieve many of these advances. Our practiced understanding is that this was an unprecedented “liberal hour” in America, a moment, after Kennedy’s death, when the seas parted and Johnson could simply stroll through to victory. As Zelizer shows, this view is off-base: In many respects America was even more conservative than it seems now, and Johnson’s legislative program faced bitter resistance. The Fierce Urgency of Now animates the full spectrum of forces at play during these turbulent years, including religious groups, the media, conservative and liberal political action groups, unions, and civil rights activists. Above all, the great character in the book whose role rivals Johnson’s is Congress—indeed, Zelizer argues that our understanding of the Great Society program is too Johnson-centric. He discusses why Congress was so receptive to passing these ideas in a remarkably short span of time and how the election of 1964 and burgeoning civil rights movement transformed conditions on Capitol Hill. Zelizer brings a deep, intimate knowledge of the institution to bear on his story: The book is a master class in American political grand strategy. Finally, Zelizer reckons with the legacy of the Great Society. Though our politics have changed, the heart of the Great Society legislation remains intact fifty years later. In fact, he argues, the Great Society shifted the American political center of gravity—and our social landscape—decisively to the left in many crucial respects. In a very real sense, we are living today in the country that Johnson and his Congress made.

**The New Suburban History** Kevin M. Kruse, Thomas J. Sugrue, 2006-07-15 Introduction: The new suburban history / Kevin M. Kruse and Thomas J. Sugrue -- Marketing the free market : state intervention and the politics of prosperity in metropolitan America / David M.P. Freund -- Less than plessy : the inner city, suburbs, and state-sanctioned residential segregation in the age of Brown / Arnold R. Hirsch -- Uncovering the city in the suburb : Cold War politics, scientific elites, and high-tech spaces / Margaret Pugh O’Mara -- How hell moved from the city to the suburbs : urban scholars and changing perceptions of authentic community / Becky Nicolaides -- The house I live in : race, class, and African American suburban
dreams in the postwar United States / Andrew Wiese -- Socioeconomic integration in the suburbs: from reactionary populism to class fairness in metropolitan Charlotte / Matthew D. Lassiter -- Prelude to the tax revolt: the politics of the tax dollar in postwar California / Robert O. Self -- Suburban growth and its discontents: the logic and limits of reform on the postwar Northeast corridor / Peter Siskind -- Reshaping the American dream: immigrants, ethnic minorities, and the politics of the new suburbs / Michael Jones-Correa -- The legal technology of exclusion in metropolitan America / Gerald Frug.

*United States 1740-1919* Derrick Murphy, Kathryn Cooper, Mark Waldron, 2008-05

For the 2008 specifications, this book includes coverage from the causes of the American Revolutionary War to the end of the First World War. With historical interpretations, document source questions, explanation of difficult words and concepts, a study skills section for exam preparation and visuals to support learning available online. Contents: Study and examination skills 1 The United States 1740 1919: A synoptic overview 2 The Struggle for Independence c1740 1783 3 Westward Expansion in the 19th Century 4 The Causes and Course of the Civil War, 1840 1865 5 The Gilded Age' to the First World War, 1865 1919 6 Civil Rights 1865 1919

FAQs About Fault Lines A History Of The United States Since 1974(3) Books

What is a Fault Lines A History Of The United States Since 1974(3) PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. How do I create a Fault Lines A History Of The United States Since 1974(3) PDF? There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. How do I edit a Fault Lines A History Of The United States Since 1974(3) PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. How do I convert a Fault Lines A History Of The United States Since 1974(3) PDF to another file format? There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. How do I password-protect a Fault Lines A History Of The United States Since 1974(3) PDF? Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and
editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
